Coal production in the country

*370. SHRI VIJAYKUMAR RUPANI: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that Coal availability is less than that of production in our country;

(b) the total production of our country for the last five years from 2002-03 to 2006-07 and the share of Coal India Ltd. thereof and the demand met by CIL and private sector;

(c) the plans to explore underground coal gasification to be used as a fuel in view of the "Proved" and "Indicated" deposits having immense potential; and

(d) how much is the current level of energy consumption in India compared to developed and developing countries?

THE MINISTER OF STATE IN THE MINISTRY OF COAL (SHRI SANTOSH BAGRODIA): (a) and (b) The All India coal production, the share of Coal India Limited (CIL) thereof for the last five years *i.e.* 2002-03 to 2006-07 are given below:—

(Figs. in Million Tonnes)

		2002-03	2003-04	2004-05	2005-06	2006-07
Indigenous	All India	341-27	361.25	382.62	407.04	430.83
Production	Coal India Ltd.	290.69	306.36	323.57	343.39	360.91
	Percentage share of Coal India Ltd.	85.18	84.80	84.57	84.36	83.77
	Singareni Collieries Company Ltd.	33.23	33.85	35.30	36.13	37.70
	Others (public)	1.45	1.61	1.90	1.81	1.77
	Others (private)	15.83	19.41	21.83	25.70	30.45
Import		23.26	21.68	28.95	38.57	45.00
TOTAL:		364.53	382.93	411.57	445.61	475.83

It may be seen from the above table that by and large, the coal demand in the country was met by indigenous sources. However, some consumers import coal due to limited indigenous availability of coking coal and low ash non-coking coal. Environmental consideration, location specific landed cost, building up of stocks by Power Utilities etc.

(c) Coal India Limited has entered into a Memorandum of Understanding (MoU) with Oil and Natural Gas Commission (ONGC) to jointly pursue pilot scale study for Underground Coal Gasification (UCG), ONGC has, in turn, entered into a MoU with Skochinsky Institute of Mining (SIM), Russia for providing technical consultancy in this field. CIL and Coal Mines Planning and Design and Institute (CMPDIL), have identified 5 coal blocks and data packages were prepared for those blocks based on the formats supplied by ONGC and Skochinsky Institute of Mining. The data supplied were examined by the Russian experts and only one block namely Kasta in Raniganj coalfield was selected for generation of additional data for considering its suitability for taking up Pilot Scale Studies.

(d) As per available information (World Energy Statistics 2005). INDIA CONSUMED 4.39 Kg. of oil equivalent (Kgoe) per person of primary energy compared to 7835 in United States of America and 1090 in China and the world average in 1688 Kgoe.

Recovery of dues from private operators by BSNL

*371. SHRI HARISH RAWAT:
SHRIMATI SHOBHANA BHARTIA:

Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

(a) whether BSNL has to recover several crores from its subscribers and private operators;

(b) if so, the facts and details thereof;

(c) whether BSNL has chalked out plans to recover such dues from subscribers and private operators within a time schedule;

(d) if so, the details thereof;

(e) whether any responsibility has been fixed on official of BSNL, who have failed to recover such huge outstanding dues; and

(f) if so, the details thereof?

THE MINISTER OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI A. RAJA): (a) and (b) Yes, Sir. the total outstandng dues of BSNL against subscribers and private operators as on 31-01-2008 are Rs. 5488.04 crores. The details are as follows:—

(Amount in crores of Rs.)

	Subscribers		Private Operators	
Year	Fixed line Service	Mobile (Post paid)	IUC (Interconnect usage charges)	Total
1	2	3	4	5
Upto 1997-1998	146.42			146.42
1998-99	140.55			140.55
1999-00	168.36			168.36
